tonybermea.dev

Front-end Developer & Digital Designer based in Vancouver, BC.

Experience

UpWork • Front-end Developer & UX Designer
December 2020 - Present

I've worked with agencies, design studios and also taken on solo projects. My work has been primarily in the realms of front-end development, web and UX design, SEO, branding, and prototyping.

Napkin Studio • Web & Digital Designer
November 2017 -2022

I was the co-founder of Napkin Studio. My work spanned from wireframing, helping with research studies to creating visuals for onboarding UI and Web Design projects while working on branding too.
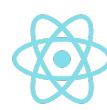

Tech Stack

HTML5 · CSS3 · JavaScript · React.js · Express.js · Tailwind · Sass

Node.js · MongoDB · GraphQL · Figma · Sketch · Jest · Git

Education

CICCC • Web & Mobile Development
August 2021 - 2023

I learned to build Proggressive Web Applications, client and server side, using mainly the MERN stack.

UAdeC • Bachelor's in Graphic Design
August 2009 - 2013

I took my first steps into web design. I learned semantic HTML, modern CSS and jQuery.
